## QUARIUM CLASSES

Available now!

Amazing Animals (K-2) – Come and take a close view into the world of exciting freshwater creatures! Fish, turtles and frogs, oh my! Students will learn about characteristics of animals, needs of life, and life cycles depending on grade level. Includes pre- and post-assessments, touch tank time, observations of animal materials with hand lenses and other hands-on activities.

Aligns to the following Georgia Performance Standards:

Predator-Prey (3-5) – It is “survival of the fittest” in this program. Your students will learn how organisms are highly adapted for survival and interact among trophic levels to form food webs. They will also understand how predators and prey are beneficial to one another. Predator-prey interactions will be observed by students first hand. Students will focus on animal habitats, adaptations or classification depending on grade level.

Includes pre and post assessments, touch tank time, predator-prey observations and record keeping and other hands-on activities.
